

STATE ACTION
Governor's Office of Planning and Budget
116 State Capitol, SLC, UT 84114
Phone: (801) 538-1535 Fax: (801) 538-1547

1. Administering State Agency: Division of Oil, Gas and Mining 1594 West North Temple Suite 1210 PO Box 145801 Salt Lake City, Utah 84114-5801	2. State Application Identifier Numbers: (assigned by State Clearinghouse) 3. Approximate date project will start: Expanding an existing small mining operation (< 5 acres), to a large mining operation.
4. Areawide clearinghouse(s) receiving State Action: (to be sent out by agency in block 1) Darrell Cook Mountainlands Association of Governments 586 East 800 North Orem, Utah 84097-4146	
5. Type of action: <input type="checkbox"/> Lease <input checked="" type="checkbox"/> Permit <input type="checkbox"/> License <input type="checkbox"/> Land Acquisition <input type="checkbox"/> Land Sale <input type="checkbox"/> Land Exchange <input type="checkbox"/> Other	
6. Title of proposed action: Large Mining Operations - Interpace Industries, Inc. , Henefer Red Clay Mine <i>m/043/014</i>	
7. Description: During Operations: The mining will consist of pushing the clay material down a natural slope with a dozer where it is transported by a front-end loader to a vibrating or rotary screen. The screen separates the clay from the rock fragment and is loaded onto trucks and shipped to the brick-making facility in Ogden. The screened rock is stockpiled on site until sold. Topsoil/overburden material are stripped and stockpiled for reclamation prior to removal of the clay. There are no permanent structures on site. When fuel is stored on site, it will have secondary containment with a capacity of 110% of the storage tank to contain any spill that may occur. There is no public vehicle access to this site due to the area being managed as part of the Henefer Wildlife Management Area and is behind locked gates. After Operations: The access road (3.5 acres) will remain for access to the private property, Wildlife Resources employees and fire crews to access the Henefer/Echo Wildlife Management Area. No slopes steeper than 30 degrees will remain. All areas will have topsoil or amended soil resources replaced at a depth of 8-10 inches. All areas to be seeded will be amended with 10-tons per acre of composted manure. All disturbed areas will be ripped to a depth of 18 inches to alleviate compaction. The ephemeral drainage will be re-established through the reclaimed area. The channel will average 10-15 feet wide and 3-4 feet deep. The site will then be revegetated in the fall by broadcasting an approved seed mixture designed to provide quality winter forage for big game species.	
8. Land affected (site location map required) (indicate county) Portions of the NE1/4 of Section 34, Township 4 North, Range 4 East, SLBM, Summit County, Utah	
9. Has the local government(s) been contacted? Yes. Lesli Burns, Summit County Planner, 627 South Main, PO Box 128, Coalville, UT 84017	
10. Possible significant impacts likely to occur: None	
11. Name and phone number of district representative from your agency near project site, if applicable: N/A	
12. For further information, contact: Lynn Kunzler, Senior Reclamation Specialist Phone: (801) 538-5310	13. Signature and title of authorized officer:  Permit Supervisor Date: <i>1-27-03</i>
